PART 13 — E-BOARD GOVERNMENT & INSTITUTIONAL SALES KIT

Pilot Program

LOSVINCA — DIGITAL BOARD GOVERNANCE PLATFORM

Document Classification: Sales Enablement — Pilot Programme Design and Copy **Prepared by:** Losvinca Sales Engineering **Status:** READY TO USE (except where marked for Losvinca input) **Version:** 1.0

SECTION A: PILOT PROGRAMME DESIGN

Programme Rationale

Government institutions, state corporations, and NGOs operate within formal procurement frameworks that require evidence-based decision-making. A pilot programme serves three purposes:

1. **Proof of Value** — The institution experiences E-Board in a real governance scenario before committing to a full subscription.
2. **Internal Consensus** — The pilot generates tangible evidence (a completed digital meeting cycle) that stakeholders can evaluate.
3. **Budget Justification** — Pilot results provide the data needed to justify a full budget allocation, particularly when the pilot occurs in one financial year and the full subscription is budgeted for the next.

Programme Parameters

Parameter	Specification
Duration	30 calendar days
Users	Up to 25 users (sufficient for a full board plus administrative staff)
Meetings	At least 1 complete meeting cycle (recommended: 1 board meeting or 1 committee meeting)
Modules Included	All E-Board modules — full platform access, no feature restrictions
Branding	Full white-label configuration with institution's identity
Support	Dedicated implementation support throughout the pilot
Data	All data created during the pilot is retained if the institution converts to a full subscription

Implementation Timeline

Pre-Pilot: Days -7 to 0 (One Week Before Start)

Day	Activity	Responsibility	Deliverable
Day -7	Kick-off meeting: confirm pilot scope, identify participants, agree on the meeting to be digitised	Losvinca + Institution	Signed pilot agreement, participant list

Day	Activity	Responsibility	Deliverable
Day -6 to -5	Gather institutional information: logo, colours, letterhead, CEO signature, organisational structure, board member details	Institution (with Losvinca guidance)	Branding assets, board member data
Day -4 to -3	Platform configuration: six-step setup wizard, branding, roles, permissions, email configuration	Losvinca	Configured E-Board instance
Day -2 to -1	Board member profile creation, committee setup, document repository structure	Losvinca + Institution	Populated platform
Day 0	Platform ready for training	Losvinca	Confirmation of readiness

Pilot Week 1: Days 1-7 — Training and Setup

Day	Activity	Participants	Duration
Day 1	Administrator training — system configuration, user management, permissions	System administrators (1-2 people)	2 hours
Day 2	Corporation Secretary training — almanac, meeting initiation, notices, papers, minutes, resolutions	Corporation Secretary + support staff (2-4 people)	3 hours
Day 3	Officer training — board paper preparation, annexures, status tracking	Officers who prepare board papers (3-6 people)	2 hours
Day 4	Director/Division Head training — paper review workflow, approval process	Directors and Division Heads (2-4 people)	1.5 hours
Day 5	CEO training — paper review with sticky notes, notice approval, almanac approval, dashboard	CEO (1 person)	1 hour
Day 6	Board member orientation — board portal walkthrough, paper review, sticky notes, profile management	Board members (7-15 people, can be done remotely)	45 minutes
Day 7	Practice day — all users explore the system, raise questions, confirm comfort level	All participants	Self-paced

Pilot Week 2: Days 8-14 — Meeting Preparation

Day	Activity	E-Board Workflow Stage
Day 8-9	Create/confirm almanac entry for the pilot meeting	Almanac Management
Day 10	Initiate the pilot meeting	Stage 1: Meeting Initiation
Day 10-11	Create and submit board notice for CEO approval	Stages 2-3: Notice Creation and Approval
Day 11	CEO approves notice; system distributes to board members	Stage 3: CEO Approval + Email Distribution
Day 11-12	Assign officers to agenda items	Stage 4: Officer Assignments
Day 12-14	Officers prepare and submit board papers with annexures	Stage 5: Board Paper Preparation

Pilot Week 3: Days 15-21 — Paper Review and Agenda

Day	Activity	E-Board Workflow Stage
Day 15-17	Directors review submitted papers	Stage 6: Director Review
Day 17-19	CEO reviews papers with sticky notes, approves or returns	Stage 7: CEO Paper Review
Day 19-20	Build meeting agenda from approved papers	Stage 8: Meeting Preparation
Day 20-21	Board members review papers through the board portal, add sticky notes	Board Portal Experience

Pilot Week 4: Days 22-30 — Meeting Execution and Evaluation

Day	Activity	E-Board Workflow Stage
Day 22-24	Conduct the board/committee meeting using E-Board	Stage 9: Live Meeting (attendance, conflict declarations)
Day 24-25	Capture minutes in E-Board, export as Word document	Stage 10: Minutes Capture
Day 25-26	Create and assign resolutions from the meeting	Resolution Management
Day 26-27	Upload relevant documents to the document repository	Document Repository
Day 27-28	Review audit trail, generate PDF exports	Audit Trail + Reporting
Day 29	Pilot evaluation meeting — review experience, gather feedback, assess success criteria	Evaluation
Day 30	Present conversion proposal — full annual subscription recommendation	Commercial Discussion

Training Approach

Principle: Train users on the specific tasks they perform in their role. Do not train board members on administrative functions, and do not train officers on CEO-level approvals.

Role	Training Focus	Duration	Format
System Administrator	Full platform configuration, user management, permissions, email setup, audit trail	2 hours	On-site or remote
Corporation Secretary	Almanac, meeting initiation, notices, agenda building, minutes capture, resolutions, conflict register, PDF exports	3 hours	On-site or remote
Officers	Board paper preparation, annexure attachment, status tracking, notifications	2 hours	On-site or remote
Directors/Division Heads	Paper review, approval workflow, notifications	1.5 hours	On-site or remote

Role	Training Focus	Duration	Format
CEO	Paper review with sticky notes, notice approval, almanac approval, dashboard, resolution overview	1 hour	On-site (recommended)
Board Members	Board portal navigation, paper review, sticky notes, conflict declaration, profile management	45 minutes	On-site or remote (group session)

Training Materials Provided:

- Role-specific quick reference guides
- Step-by-step walkthrough for the board portal (for board members)
- System administrator reference manual

[REQUIRES LOSVINCA INPUT — Confirm training materials availability and format. If these do not yet exist, they should be developed as part of the pilot programme launch preparation.]

Support During the Pilot

Support Type	Availability	Channel
Implementation support	Throughout the 30-day pilot	Dedicated contact
Technical troubleshooting	During business hours	Email and phone
Board member assistance	As needed, particularly during Week 1 and meeting day	Dedicated contact
Escalation	For critical issues	Direct line to Losvinca technical team

[REQUIRES LOSVINCA INPUT — Confirm specific support hours, response time commitments, support contact details, and whether on-site support is available during the pilot meeting day.]

Success Criteria

The pilot is considered successful when the following criteria are met:

#	Criterion	Measurement	Target
1	**Platform Configuration**	Institution fully branded with logos, colours, letterhead, and favicon	Complete
2	**Board Member Profiles**	All participating board members have complete profiles in the system	100% of pilot participants
3	**Meeting Workflow Completion**	At least one meeting has progressed through all ten stages of the E-Board workflow	1 complete cycle
4	**Board Paper Workflow**	At least three board papers have gone through the full review cycle (Officer ? Director ? CEO)	3 papers minimum
5	**Board Portal Usage**	Board members have accessed papers through the board portal	70% of participating board members

#	Criterion	Measurement	Target
6	**Conflict Declarations**	Conflict of interest declarations completed with OTP verification for the pilot meeting	All attending members
7	**Minutes Exported**	Meeting minutes captured and exported as a Word document	1 Word export
8	**Resolutions Created**	At least two resolutions created from the meeting with assigned officers and due dates	2 resolutions minimum
9	**User Satisfaction**	Pilot participants rate the system as meeting or exceeding expectations	Collected via feedback survey
10	**Audit Trail**	Comprehensive audit trail generated for all pilot activities, exported as PDF	1 PDF export

Conversion to Annual Subscription

Pilot-to-Subscription Pathway:

1. **Day 29 — Evaluation Meeting:** Losvinca and the institution review the pilot results against success criteria. Feedback is collected from all user groups.

2. **Day 30 — Conversion Proposal:** Losvinca presents the annual subscription proposal, including:
   - Summary of pilot achievements
   - User feedback highlights
   - Cost-benefit analysis based on actual pilot experience
   - Annual subscription terms and pricing
   - Implementation plan for full rollout (if the pilot covered only one committee)

3. **Post-Pilot Data Continuity:** All data created during the pilot — board member profiles, meeting records, papers, minutes, resolutions, documents, and audit trails — is retained and carries forward into the full subscription. No data is lost, and no re-entry is required.

4. **Procurement Support:** Losvinca provides all documentation required for the institution's formal procurement process, including technical specifications, compliance statements, and pricing in the required format.

[REQUIRES LOSVINCA INPUT — Confirm annual subscription pricing tiers, pilot-to-subscription pricing (e.g., pilot fee credited towards annual subscription), contract terms, and renewal structure.]

SECTION B: 30-DAY E-BOARD PILOT PROGRAMME — OFFICIAL COPY

The following is ready-to-use copy for the pilot programme document that can be shared with prospects. It should be formatted with Losvinca and E-Board branding before distribution.

[BEGIN PILOT PROGRAMME DOCUMENT]

30-DAY E-BOARD PILOT PROGRAMME

Transform Your Board Governance — Experience It Before You Commit

ABOUT E-BOARD

E-Board is a digital board governance platform built for government institutions, state corporations, NGOs, and organisations with formal boards across Kenya and Africa. It digitises the complete board meeting lifecycle — from annual planning through meeting execution to post-meeting accountability — within a secure, auditable, and institutionally branded environment.

E-Board is developed by **Losvinca**, a technology company dedicated to building governance solutions for African institutions.

THE PILOT PROGRAMME

What It Is

A 30-day programme that gives your institution full access to the E-Board platform — every module, every feature, no restrictions — to experience a complete board meeting cycle digitally. You will set up your institution, prepare for a real meeting, conduct it through E-Board, and capture minutes and resolutions — exactly as you would in full production use.

What It Is Not

This is not a limited trial or a feature-restricted demo. During the pilot, your institution has full access to the complete E-Board platform, configured with your own branding, your own board members, and your own governance workflows.

WHAT IS INCLUDED

Full Platform Access

CURRENT PRODUCT CAPABILITY

- **Complete E-Board platform** — all modules, all features, for 30 days
- **Up to 25 user accounts** — sufficient for your full board plus administrative staff
- **Full white-label branding** — your logo, your colours, your letterhead, your CEO's signature, your favicon, your login page background

- **All ten system roles** configured with appropriate permissions

Implementation and Configuration

- **Dedicated setup support** — Losvinca configures your E-Board instance using the six-step setup wizard
- **Board member profile creation** — comprehensive profiles with photos, qualifications, documents, and committee assignments
- **Organisational structure setup** — your directorates and divisions reflected in the system
- **Email configuration** — notifications sent from your institution's own email domain
- **Document repository setup** — categories and structure for your board documents

Training

- **Role-specific training sessions** for every user group:
  - System administrators (2 hours)
  - Corporation Secretary and support staff (3 hours)
  - Officers preparing board papers (2 hours)
  - Directors and Division Heads (1.5 hours)
  - CEO (1 hour)
  - Board members (45 minutes)
- **Quick reference guides** for each role
- **Board portal walkthrough** for board members

Support

- **Dedicated implementation contact** throughout the 30-day pilot
- **Technical support** during business hours
- **Board member assistance** during onboarding and meeting day

---

THE PILOT EXPERIENCE

What You Will Accomplish in 30 Days

By the end of the pilot, your institution will have completed a full digital board meeting cycle:

Week 1 — Setup and Training

- Your E-Board instance is configured with your institution's branding and identity
- All participating board members have profiles in the system
- Every user is trained on the specific tasks relevant to their role
- Your board portal is live and accessible to board members on their iPads and devices

Week 2 — Meeting Preparation

- A board or committee meeting is initiated through E-Board
- Board notices are created, approved by the CEO, and distributed electronically

- Officers prepare board papers with annexures and submit them for review
- The multi-stage review workflow operates: Officer submits, Director reviews, CEO reviews with sticky notes

Week 3 — Board Member Experience

- Board members access their papers through the iPad-optimised board portal
- They review documents, add personal sticky notes, and prepare for the meeting
- The meeting agenda is built from approved papers
- All participants are notified automatically at every stage

Week 4 — Meeting and Outcomes

- The board or committee meeting is conducted with digital attendance and OTP-verified conflict of interest declarations
- Minutes are captured in E-Board and exported as a professionally formatted Word document
- Resolutions are created, assigned to responsible officers, and tracked
- The comprehensive audit trail is reviewed and exported as a PDF
- The pilot is evaluated against success criteria

What Your Institution Gains

Even if you choose not to continue after the pilot, you retain:

- A complete understanding of digital board governance in practice
- Minutes from the pilot meeting, exported as a Word document
- A conflict of interest register from the meeting
- An attendance register
- Audit trail records from the pilot period
- The experience and confidence to evaluate any governance platform

---

WHO PARTICIPATES

Role	Number of Participants	Involvement
System Administrator	1-2	Full platform management
Corporation Secretary	1	Meeting workflow management
Support Staff	2-3	Paper preparation and coordination
Officers	3-6	Board paper preparation
Directors / Division Heads	2-4	Paper review and approval
CEO	1	Notice and paper approval, dashboard
Board Members	7-15	Board portal, paper review, meeting participation
Total	**Up to 25 users**	

SUCCESS CRITERIA

At the end of the 30-day pilot, we will jointly evaluate the programme against these criteria:

1. The E-Board platform has been fully configured with your institution's branding and identity
2. All participating board members have complete profiles in the system
3. At least one meeting has completed the full ten-stage E-Board workflow
4. Board papers have gone through the multi-stage review process (Officer, Director, CEO)
5. Board members have accessed and reviewed papers through the board portal
6. Conflict of interest declarations have been completed with OTP verification
7. Meeting minutes have been captured and exported as a Word document
8. Resolutions have been created with assigned officers and due dates
9. The audit trail has been reviewed and exported
10. Participants confirm that E-Board meets or exceeds their expectations for board governance

AFTER THE PILOT

If You Choose to Continue

- **Seamless transition** — your pilot instance becomes your production instance
- **All data retained** — board member profiles, meeting records, papers, minutes, resolutions, documents, and audit trails carry forward
- **No re-entry, no re-configuration** — everything you built during the pilot continues into production
- **Annual subscription** — convert to a full annual subscription with continued support

[REQUIRES LOSVINCA INPUT — Insert annual subscription pricing, terms, and whether the pilot fee is credited towards the annual subscription]

If You Choose Not to Continue

- All exported documents (Word minutes, PDF reports, CSV exports) remain yours
- No obligation, no penalty
- We welcome your feedback to improve the platform

INVESTMENT

[REQUIRES LOSVINCA INPUT — Insert pilot programme pricing. Suggested structure:]

30-Day Pilot Programme

Item	Included

Full E-Board platform access (30 days)	Included
Up to 25 user accounts	Included
Full white-label branding configuration	Included
Platform setup and configuration	Included
Role-specific training (all user groups)	Included
Dedicated support throughout the pilot	Included
Pilot Programme Fee	REQUIRES LOSVINCA INPUT

Pilot programme fee is credited in full towards the annual subscription if the institution converts within 30 days of pilot completion.

HOW TO BEGIN

Step 1: Contact Losvinca to express interest in the pilot programme.

Step 2: We schedule a kick-off meeting to confirm the scope, identify participants, and agree on the meeting to be digitised during the pilot.

Step 3: Your institution provides branding assets (logo, colours, letterhead, CEO signature) and board member information.

Step 4: Losvinca configures your E-Board instance — typically within five business days.

Step 5: Training begins, and your 30-day pilot is underway.

CONTACT

[REQUIRES LOSVINCA INPUT — Insert contact details:]

Losvinca

- Contact Person: [Name and Title]
- Email: [Email Address]
- Phone: [Phone Number]
- Website: [Website URL]

SECTION C: PILOT PROGRAMME SALES GUIDANCE

When to Propose the Pilot

The pilot programme is your most powerful sales tool in the following situations:

1. **Budget objection** — "We do not have the budget" becomes "Start with a pilot this financial year, use the results to justify a full budget allocation for next year."

2. **Adoption concern** — "Board members will not use it" becomes "Let us prove it with one meeting. If board members do not engage, you have invested very little."

3. **Previous bad experience** — "We tried something before and it failed" becomes "The pilot is exactly thirty days. If E-Board does not deliver, you walk away with no obligation."

4. **Need for internal consensus** — "I need management approval" becomes "The pilot gives you tangible evidence — a completed digital meeting — that you can present to management."

5. **Competitive evaluation** — "We are looking at other solutions" becomes "Run our pilot in parallel with your evaluation. Let the results speak for themselves."

6. **Timing objection** — "The timing is not right" becomes "A pilot requires minimal commitment and can align with your next scheduled committee meeting."

How to Present the Pilot

> *"Rather than asking you to make a decision based on a demonstration, let me suggest something more practical. Our thirty-day pilot programme gives your institution full access to E-Board — every feature, no restrictions — to conduct a real board or committee meeting digitally. You experience the entire workflow: from meeting initiation and board paper preparation, through the review process and notice distribution, to the meeting itself with digital attendance and conflict declarations, and finally minutes capture and resolution tracking."*

> *"At the end of thirty days, you will have concrete evidence — not a vendor's promises, but your own experience — of what digital board governance looks like for your institution. If it works, we transition seamlessly to an annual subscription with all your data intact. If it does not meet your expectations, you walk away with no obligation."*

> *"Would it make sense to align the pilot with your next scheduled committee meeting?"*

Pilot Qualification Questions

Before proposing a pilot, ensure the institution can deliver on its side:

1. **"Do you have a board or committee meeting scheduled within the next six weeks?"** — The pilot needs a real meeting to demonstrate value.

2. **"Can you identify a Corporation Secretary or governance officer who will champion this internally?"** — Without an internal champion, the pilot will not receive the attention it needs.

3. **"Are your board members willing to participate in a forty-five-minute orientation session?"** — Board member participation is essential.

4. **"Can your institution provide branding assets — logo, letterhead, CEO signature — within the first week?"** — Configuration cannot begin without these.

5. **"Is there a decision-maker who will evaluate the pilot results and can authorise conversion to a full subscription?"** — Ensure the pilot leads to a decision, not indefinite evaluation.

Common Pilot Risks and Mitigation

Risk	Mitigation
No meeting falls within the 30-day window	Align pilot start date with the institution's meeting calendar. If necessary, use a committee meeting rather than a full board meeting.
Board members do not attend orientation	Schedule the orientation at a time convenient for board members. Offer remote sessions. Provide written quick-reference guides as a fallback.
Corporation Secretary is too busy to manage the pilot	Assign a dedicated support staff member as the day-to-day pilot coordinator. Losvinca provides additional hands-on support.
CEO does not engage with approval workflows	Schedule the CEO training session first, before other users. Keep the CEO session to one hour maximum. Emphasise the dashboard and sticky notes — features that deliver personal value.
Institution requests pilot extension	Offer a one-time extension of up to 14 days if the meeting was delayed. Use the extension to strengthen the conversion conversation.
Pilot succeeds but procurement delays conversion	Maintain the pilot instance in a read-only state while procurement proceeds. Provide all procurement documentation proactively.

SECTION D: PILOT PROGRAMME CHECKLIST

Pre-Pilot Checklist (Institution Provides)

- [ ] Institution name and registration details
- [ ] Logo (high resolution, PNG or SVG preferred)
- [ ] Brand colours (primary and secondary, hex codes)
- [ ] Favicon image

- [ ] CEO signature image
- [ ] Institutional letterhead design
- [ ] Login page background image (optional)
- [ ] Organisational structure (directorates and divisions)
- [ ] Board member details for all pilot participants:
  - [ ] Full name
  - [ ] Email address
  - [ ] Phone number
  - [ ] Photo
  - [ ] Qualifications
  - [ ] Appointment date
  - [ ] Committee assignments
  - [ ] CV (optional)
  - [ ] Gazette notice (optional)
  - [ ] Signature image (optional)
- [ ] Committee structure and membership
- [ ] SMTP email configuration details (server, port, credentials)
- [ ] Date and type of meeting to be digitised during the pilot
- [ ] Contact person for day-to-day pilot coordination

Pre-Pilot Checklist (Losvinca Delivers)

- [ ] Pilot agreement signed
- [ ] E-Board instance provisioned
- [ ] Six-step setup wizard completed
- [ ] Branding configured (logo, colours, favicon, letterhead, CEO signature, login background)
- [ ] Organisational structure created (directorates, divisions)
- [ ] Board member profiles created with all available information
- [ ] Committees configured with members assigned
- [ ] Roles and permissions configured
- [ ] Email system configured and test email sent
- [ ] Financial year set (July-June)
- [ ] Training schedule confirmed with all participant groups
- [ ] Quick reference guides prepared for each role

Pilot Execution Checklist

- [ ] Administrator training completed
- [ ] Corporation Secretary training completed
- [ ] Officer training completed
- [ ] Director/Division Head training completed
- [ ] CEO training completed

- [ ] Board member orientation completed
- [ ] Almanac entry created for pilot meeting
- [ ] Meeting initiated (Stage 1)
- [ ] Board notice created (Stage 2)
- [ ] Board notice approved by CEO (Stage 3)
- [ ] Board notice distributed to board members
- [ ] Officers assigned to agenda items (Stage 4)
- [ ] Board papers prepared and submitted (Stage 5)
- [ ] Papers reviewed by Directors (Stage 6)
- [ ] Papers reviewed by CEO with sticky notes (Stage 7)
- [ ] Meeting agenda built (Stage 8)
- [ ] Board members accessed papers through board portal
- [ ] Meeting conducted with digital attendance (Stage 9)
- [ ] Conflict of interest declarations completed with OTP verification
- [ ] Minutes captured (Stage 10)
- [ ] Minutes exported as Word document
- [ ] Resolutions created with assigned officers and due dates
- [ ] Audit trail reviewed and exported as PDF
- [ ] Pilot evaluation meeting conducted
- [ ] Success criteria assessed
- [ ] Participant feedback collected
- [ ] Conversion proposal presented

SECTION E: FEATURES NOT INCLUDED IN THE PILOT

The following capabilities are **NOT CURRENTLY AVAILABLE** in E-Board and should not be promised or implied during the pilot programme. These are documented as potential future enhancements:

- SMS notifications to board members
- Video conferencing integration for remote meetings
- Board performance evaluations
- Electronic voting during meetings
- External calendar synchronisation (Google Calendar, Outlook)
- Native mobile application (iOS or Android)
- Advanced analytics or business intelligence dashboards
- REST API integrations with third-party systems (ERP, HRIS, etc.)
- User-manageable document templates
- Dedicated action points module (separate from resolutions)

If a prospect asks about any of these during the pilot, the recommended response is:

> *"That capability is not currently available in E-Board, but it is something we are aware of as a potential future enhancement. Let me note your interest, as it helps us prioritise our product development roadmap. In the meantime, let me show you how E-Board handles [related available capability] today."*

End of Part 13 — Pilot Programme
